

Roanoke Chamber Brass Reviews

"The Roanoke Chamber Brass has always provided quality music and professionalism every time I have worked with them, which has been quite often over the past several years. As a conductor, it is important to work with musicians who not only display considerable artistic abilities, but are easy to work with, punctual, and are genuinely pleased to be playing the music at hand. The Roanoke Chamber Brass exemplifies all of the aforementioned attributes. I could not recommend them more highly."

"Thank you for a spectacular job at Salem Presbyterian Church this past week. Your playing added so much to our service. We have been very excited about our 175th year and wanted this service to be as special as possible. You certainly made that hope more of a reality. I have received so many positive comments from the congregation on how much the brass added to the service. Several people have even asked me if Roanoke Chamber Brass could play every week.....how I wish!"
